

Knit In, Spin In, Come In

to be held at the Waitoki Hall 6th May 10am to 3pm

A Day in the Journey of Craft

The Waitoki Evening Craft Group, in conjunction with the Auckland Northland Branch of the Black & Coloured Sheep Breeders, are hosting their 5th open day to show off that wonderfully versatile fibre, Wool.

These open days have all been highly successful and thoroughly enjoyed by the public who pop in for a quick look or stay all day watching and participating in the many Wool Craft events.

Group members will advise, guide, and help those who are embarking on their craft adventures or those who come to meet others travelling similar routes or thinking of taking new paths.

Workshops, demonstrations, displays, and lots of information will be on hand for visitors so bring along your questions and queries. Spinning, Crochet, Knitting, Felting, Needle felting, dyeing and of course Sheep. Someone will be able to advise or direct in all these fields and possibly more.

Demonstrations and displays from wool in the raw, to garments and articles and all the stages in between; from the sheep's back to yours, something for all ages to do by themselves or as part of a group.

Free entry and lots to see in a friendly welcoming environment.

Introductory hands on workshops including felting, knitting, crochet, with only a gold coin donation for participants to cover materials.

Demos will be ongoing throughout the day.

A selection of crafts and wool will be available for sale.
